Attached is a file that Stevie had and I amended for this sampling. Please take a look at it and see if I left anything out.

Ex. 5 - Deliberative

Robin, please check the list of metals. We cannot do methane at this time, but Adam is working on adding this capability (column is on order).

Kevin and Sue.

There is a possibility that HSCD will go out sampling next month on some home wells related to the Dimock HF issue. I briefly spoke to Rich Rupert last week and he had few details but progress is underway to outline a list of analytes and develop a sampling plan. I gave Rich both of your names as contacts for us. If there are any conference calls or more

DIM0061090 DIM0061090

information this week I'll let you know. For now I will send you two emails that were sent to me.

Sue - would you pull together a list of parameters based on the ORD HF Study and what we recommended in the past?

We can discuss more tomorrow at the branch meeting.

Cindy
